

FACT SHEET

UPDATED: 06.17.22

PROJECT STATUS

Street resurfacing began in October 2020 and was completed in July 2021.

City Council approved the Notice of Completion for the project on August 11, 2021.

PROJECT BUDGET

The final project cost for the FY19-20 paving program was \$2,770,000. The construction contract was awarded to Eagle Paving Company. Funding for the program is provided through TransNet Funds, SBI (Gas Tax) and the City's General Fund.

PROJECT LOCATION

A complete list of the streets included in the FY19-20 program can be found on pages 2-3 of this document.

FY19-20 Annual Paving Program (CS20A)

Maintaining quality transportation infrastructure for Encinitas

ABOUT THE PROJECT

Each year, the City's CIP Division uses pavement management software to analyze Encinitas' 168 miles of maintained roadway to identify which ones are in need of resurfacing. The streets are selected based on age, condition, prior treatments, proximity to other street segments scheduled for resurfacing and greatest need. A complete list of the streets included in the FY 19-20 program is available on pages 2-3.

Street resurfacing requires temporary lane reductions and road closures during construction. The City and its contractor work to minimize any impacts or inconvenience to the public and to maintain access to homes and businesses throughout construction. Businesses and residents on the affected streets were notified through signage, door hangers, and updates on the City website and social media channels.

The annual paving program is part of the City's ongoing commitment to maintaining quality transportation infrastructure through consistent maintenance, as outlined in the City's Strategic Plan.
